If you could set up something where we could download them, that might be best. I thought it odd that the zip files went through to me in the first place, so that must be what happened – the content was stripped. And the PAs couldn't receive my forwarded email.

Thanks

Hi Stephanie,

They weren't empty when they left my email – I wonder if they somehow got stripped. I can send them to someone at CDM or someone else outside of EPA or I can set up a Leapfile and you can download them. Let me know what works best.

Thanks,

Marcia

Hi Marcia,

We can't open these files. The zips are empty? Could you please re-send.

Thanks,
Stephanie

Subject: SSP2 - Shapefiles

Hi Stephanie,

Attached are the shapefiles that are displayed on the SSP2 maps. I think the files names should be self-explanatory, please let me know if you need additional information.

Thank you,

Marcia
